

# Task 1: Pie Chart

**Subject:** The chart and table below give information about tourists at a particular holiday resort in Australia. Summarise the information by selecting and reporting the main features, and make comparisons where relevant. You should write at least 150 words.

Tourist by region of origin (percent - %)

Tourists by region of origin	Asian Tourists	European Tourists	American Tourists	Tourists from other regions
Average length of stay	7 days	16 days	14 days	10 days
Most popular accommodation	5-star hotel	Camping or Caravan	4-star hotel	Camping or Caravan
Main activity	Sightseeing	Swimming/Sunbathing	Sightseeing	Surfing

## Model Answer #1

### Response:

The given diagrams illustrate information about visitors staying at a holiday resort in Australia.

In summary, European tourists make up the largest proportion of visitors and stay the longest in Australia, whereas Asian tourists have the lowest representation and the shortest stays. Notably, sightseeing is the most popular activity among both American and Asian visitors, while European and tourists from other regions prefer camping or caravan accommodations.

According to the data, European tourists account for the largest share of guests at 37%, staying the longest at 16 days, primarily in camping or caravans. Their main activities include swimming and sunbathing. Similarly, travelers from other regions make up 18% and prefer the same accommodation type as Europeans, staying for 10 days and engaging mainly in surfing.

Turning to other nationalities, both Asian and American tourists favor sightseeing. Asian visitors typically stay for 7 days in a 5-star hotel, whereas American guests tend to spend twice as much time, opting for 4-star hotels.

### Evaluation:

#### Overall Band Score: 9

**Task Response (9):** Excellent overview of the main features and comparisons. All key information is accurately presented and discussed.

**Coherence & Cohesion (9):** The report is exceptionally well-structured and easy to follow. The flow between paragraphs is seamless and logical.

**Lexical Resource (8.5):** A wide range of sophisticated vocabulary is used accurately and appropriately. The language is natural and precise.

**Grammatical Range & Accuracy (9):** The grammar is impeccable. A wide range of grammatical structures is used with complete accuracy and fluency.

## Model Answer #2

### Response:

The presented data encompasses a pie chart and a table detailing the origins of tourists visiting a specific holiday resort in Australia, alongside their average length of stay, preferred accommodation, and popular activities.

Notably, tourists from Asia constituted the largest share of the total visitors, while Europeans exhibited the longest average duration of stay. In contrast, Asian tourists tended to have the shortest average visit, highlighting distinct preferences among these groups.

The pie chart reveals that 37% of the tourists hailed from Asia, making it the predominant region of origin. Closely trailing, Europe accounted for 35% of the visitor population, indicating a substantial influx from this region. Meanwhile, visitors from the United States represented 18%, and tourists from other regions made up the remaining 10%. This distribution underscores the significance of Asia and Europe as primary sources of tourism for the resort.

According to the table, European tourists boasted the longest average stay at 16 days, favoring camping or caravan accommodations, while American tourists enjoyed a 14-day vacation, generally opting for 4-star hotels. In contrast, Asian visitors had the shortest average length of stay at 7 days, with a preference for 5-star accommodations primarily for sightseeing activities. Tourists from other regions, who stayed for an average of 10 days, also preferred camping or caravans and engaged in surfing as their main activity. This highlights a diverse range of accommodation preferences and activities enjoyed by different demographic groups.

### Evaluation:

#### Overall Band Score: 9

**Task Response (9):** Excellent response to the task. All key information is presented clearly and accurately.

**Coherence & Cohesion (9):** The report is very well-organized and easy to follow. The information flows smoothly and logically.

**Lexical Resource (9):** A wide range of vocabulary is used accurately and appropriately. The language is sophisticated and natural.

**Grammatical Range & Accuracy (9):** The report demonstrates excellent grammatical accuracy and a wide range of grammatical structures.

## Model Answer #3

### Response:

The pie chart shows data about tourists visiting specific weekend areas in Australia, divided by their region of origin. The table provides details about how long they stay and the activities they usually do.

Overall, the pie chart indicates that most tourists come from the US and Europe, while the fewest come from Asia. The table reveals that Europeans stay the longest, while Asians have the shortest stays.

Starting with the pie chart, tourists from Europe make up the largest group, accounting for 37% of visitors. Close behind are tourists from the US, who make up 35%. In contrast, only 10% of tourists come from Asia, which is the smallest group. Visitors from other regions make up 18% of the total, which is nearly double the percentage of Asian tourists.

The table shows that Asian tourists usually stay for only a week, the shortest period. In comparison, tourists from the US stay for an average of 14 days. Europeans have the longest stays, lasting 16 days, while tourists from other regions generally stay for 10 days.

When it comes to accommodation and activities, European and tourists from other regions mostly choose camping or caravans, while Asians and Americans prefer hotels. Asians and Americans mainly engage in sightseeing, while Europeans favor swimming and sunbathing. Tourists from other regions mostly choose surfing.

### Evaluation:

#### Overall Band Score: 9

**Task Response (9):** Excellent response to the task. All key features are accurately reported and comparisons are made where relevant.

**Coherence & Cohesion (9):** The report is very well-organized and easy to follow. Paragraphing is used effectively to separate different aspects of the information.

**Lexical Resource (8.5):** A wide range of vocabulary is used accurately and appropriately. The report demonstrates a sophisticated control of lexical features.

**Grammatical Range & Accuracy (9):** The report is grammatically accurate and uses a wide range of structures with full flexibility and control.

## Model Answer #4

### Response:

The provided data consists of a pie chart and a table illustrating the details of tourists at a specific holiday resort in Australia.

The pie chart delineates the proportion of tourists from different regions – 37% from Asia, 35% from Europe, 18% from the United States, and 10% from other regions. The table provides insights into the average length of stay, preferred accommodation, and main activity for each region.

Travelers from Asian regions constitute the largest group, accounting for 37% of the total visitors. They typically stay for a week, opt for 5-star hotels, and engage in sightseeing activities. In contrast, European tourists, comprising 35% of the total, have a longer average stay of 16 days, prefer camping or caravans for accommodation, and enjoy activities like swimming and sunbathing.

American tourists, representing 18% of the total, choose 4-star hotels for their accommodation, stay for 14 days on average, and share a preference for sightseeing with Asian tourists. Tourists from other regions, amounting to 10% of the total, stay for 10 days on average, favor camping or caravans, and engage in surfing as their main activity.

### Evaluation:

#### Overall Band Score: 9

**Task Response (9):** The report fully addresses the task by summarizing the main features of the chart and table, making relevant comparisons between the different regions of tourists.

**Coherence & Cohesion (9):** The report is well-organized with clear paragraphing and a logical flow of information. Cohesive devices are effectively used to connect ideas, making the report easy to follow.

**Lexical Resource (9):** There is a wide range of vocabulary used accurately and precisely throughout the report. The language is sophisticated and demonstrates a high level of lexical resource.

**Grammatical Range & Accuracy (9):** The report showcases a variety of grammatical structures used accurately. Punctuation and grammar are consistently correct, contributing to the overall clarity and coherence of the report.
