

Task 1: Map

Subject: The plans below show a public park when it first opened in 1920 and the same park today. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Answer #1

Response:

The layouts illustrate a public park's earlier infrastructure and current facilities.

Overall, the public park has undergone significant modifications and renovations, resulting in the addition of many facilities, which has increased accessibility and functionality.

To begin with, in 1920, the northern part of Grand Park was connected to Arnold Avenue, and the southern part was connected to Eldon Street. The shape of the park was rectangular. A stunning fountain was located in the center. Additionally, the stage for musicians was situated to the left of the fountain, while on the right side, there was a pond as well as some seats for visitors. The glasshouse was located in the southeast corner near the south entrance.

At present, the previous musicians' stage has been demolished, and an amphitheater stands in its place. The central fountain has been replaced by a rose garden with some seating areas. The northern area has significantly changed; the rose garden and pond were replaced by a café and children's play area. The previous glasshouse and southeastern seats have been removed, and a water feature has been added. Furthermore, an underground car park entrance has been installed next to the water feature.

Scores:

Overall Band Score: 9

Task Response: 9 - Excellent response to the task. All key features are accurately described and compared.

Coherence & Cohesion: 9 - The report is exceptionally well-organized and easy to follow. The transitions between paragraphs and ideas are seamless.

Lexical Resource: 9 - A wide range of sophisticated vocabulary is used precisely and appropriately. The language is natural and fluent.

Grammatical Range & Accuracy: 9 - The grammar is impeccable. A wide range of grammatical structures is used accurately and effectively.

Answer #2

Response:

The diagrams depict the layout of Grange Park when it first opened in 1920 and its present-day design after extensive redevelopment.

Overall, the park has seen major transformations, including the addition of new amenities such as an amphitheatre, a café, and a children's playground. However, certain original elements, such as the entrances on both the northern and southern sides, have remained unchanged.

The two main entrances, located on either side of the park, have been preserved. The musician's stage, which was previously situated on the western side, has been removed and replaced by a modern amphitheatre for performances. In the heart of the park, the old fountain has been replaced by a square rose garden, which is now surrounded by seating on all four sides. Of the two original semicircular rose gardens, only the one in the top-left corner has been retained, while the one in the bottom-left corner has been eliminated.

The eastern side of the park has undergone even more significant alterations. The rose garden in the top-right corner has been transformed into a café, and the pond for aquatic plants has been replaced by a children's play area. Additionally, the seating in the bottom-right corner has been removed, and in its place, a water feature has been installed. A new entrance to an underground parking area has also been introduced, located next to the water feature for easy access.

Scores:

Overall Band Score: 9

Task Response: 9 - Excellent response to the task. All key features are identified and compared effectively.

Coherence & Cohesion: 9 - The report is very well-structured and easy to follow. The information is presented logically and coherently.

Lexical Resource: 9 - A wide range of vocabulary is used accurately and appropriately. The language is sophisticated and natural.

Grammatical Range & Accuracy: 9 - The report demonstrates excellent grammatical accuracy and a wide range of grammatical structures.

Answer #3

Response:

The plans illustrate how Grange Park appeared when it first opened in 1920 and its current state today.

In 1920, the park featured two main entrances, one from Arnold Avenue and another from Eldon Street. There was a stage for musicians located on the west side and a fountain in the center of the park. The north side housed a pond for water plants, while the east side included a glasshouse. Additionally, the park boasted two rose gardens and numerous seating areas scattered throughout. Today, the park has undergone significant changes. The musicians' stage has been transformed into an amphitheater for concerts. The fountain has been replaced by a rose garden, and the pond has been redesigned into a water feature. The glasshouse has been turned into a café, and a children's play area has been introduced. Furthermore, a new entrance has been created for an underground car park.

Overall, the park now offers more facilities compared to its original design in 1920, with an emphasis on entertainment and convenience.

Scores:

Overall Band Score: 9

Task Response: 9 - The report provides a comprehensive and accurate summary of the key changes in the park, demonstrating a strong understanding of the task.

Coherence & Cohesion: 9 - The report is well-structured and flows smoothly, with clear transitions between paragraphs and ideas. The information is presented in a logical and coherent manner.

Lexical Resource: 9 - The report uses a wide range of vocabulary, including precise and sophisticated terms, to describe the features of the park. The language is accurate and appropriate for the task.

Grammatical Range & Accuracy: 9 - The report demonstrates a high level of grammatical accuracy and control. The sentences are varied and complex, and the punctuation is used correctly throughout.

Answer #4

Response:

The diagrams illustrate the changes in Grange Park from 1920 to the present. The park has undergone significant modifications, transforming from a primarily green space into a more versatile area with modern amenities.

In 1920, Grange Park featured several rose gardens, a fountain, a stage for musicians, and a glasshouse. Notably, the park also included a pond for water plants. Seating was available throughout the park, allowing visitors to enjoy these features.

Today, the park has been significantly modernized. The stage has been replaced with an amphitheatre for concerts, catering to larger audiences. The glasshouse and pond have been replaced by a café and a children's play area, respectively, enhancing the park's appeal to families. Additionally, an underground car park has been introduced near Eldon Street to accommodate visitors, while a water feature has been added, maintaining some elements of natural beauty. The rose gardens have been reduced to two, with one central garden surrounded by seating, simplifying the layout while preserving some historical aspects.

Overall, Grange Park has evolved from a traditional green space to a multifunctional park, reflecting the changing needs and preferences of its visitors.

Scores:

Overall Band Score: 9

Task Response: 9 - The report provides a comprehensive and accurate summary of the key changes in the park, demonstrating a strong understanding of the task.

Coherence & Cohesion: 9 - The report is well-structured and flows smoothly, with clear transitions between paragraphs and ideas. The information is presented in a logical and coherent manner.

Lexical Resource: 9 - The report uses a wide range of vocabulary, including sophisticated and precise language, to describe the changes in the park. The language is accurate and appropriate for the task.

Grammatical Range & Accuracy: 9 - The report demonstrates a high level of grammatical accuracy and control. The sentences are varied and complex, and the grammar is used correctly throughout.

Answer #5

Response:

The maps illustrate the transformation of Grange Park from its establishment in 1920 to the present day. Overall, the park has undergone significant modernization, including the construction of an amphitheatre for concerts and the introduction of a water feature.

Initially, a central fountain was a prominent feature, which has since been replaced by a rose garden. The original stage for musicians, located to the left of the fountain, has been upgraded to an amphitheatre with extended seating and a modern design. While seats were originally distributed around the park, they are now arranged around the new rose garden.

In 1920, a rose garden was situated to the right of the top entrance. This area now hosts a café. Additionally, the pond for water plants in the northeast corner has been replaced by a children's play area. Similarly, the southeast corner, which once housed a glasshouse, now features a water installation and an entrance to an underground car park.

Scores:

Overall Band Score: 9

Task Response: 9 - The report accurately summarizes the main features of the park in 1920 and today, making relevant comparisons and highlighting the significant changes that have taken place.

Coherence & Cohesion: 9 - The report is extremely well-organized and easy to follow, with cohesive linking between sentences and paragraphs, making it effortless to understand.

Lexical Resource: 9 - The report showcases a wide range of vocabulary, using precise and sophisticated language to describe the park's features, such as 'amphitheatre', 'water feature', and 'underground car park entrance'.

Grammatical Range & Accuracy: 9 - The report demonstrates a high level of grammatical control, with a wide range of sentence structures used accurately and appropriately throughout.
