

## Task 1: Line Graph

**Subject:** The graph below shows the number of books read by men and women at Burnaby Public Library from 2011 to 2014. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

## **Model Answer #1**

### **Response:**

The line graph delineates the number of books read by men and women at Burnaby Public Library over the period from 2011 to 2014.

Overall, the data illustrates a fluctuating trend in reading habits between the two genders, with men initially lagging behind women but ultimately surpassing them by the end of the observed period.

In 2011, women exhibited a higher reading rate, having read approximately 4,000 books compared to men, who read around 5,500 books. Gender dynamics shifted dramatically in 2012, as the number of books read by men plummeted to about 3,000, while women surged ahead, reading nearly 6,000 books. This trend marked a substantial change in the library's borrowing patterns, indicating a growing interest among female readers.

A remarkable leap occurred in 2013, when reading figures for both genders escalated dramatically. Men read approximately 13,000 books, while women's counts stagnated at around 6,000 books. Despite a slight decline for men in 2014, reducing the number to about 12,000 books, women's reading habits saw a significant increase, rising to approximately 14,000 books. This data underscores a unique pattern where men initially saw fluctuations in their reading, ultimately peaking while women experienced consistent growth in their borrowing numbers.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** The report fully addresses the task and provides a comprehensive overview of the data presented in the graph. All key features are accurately described and analyzed.

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The logical flow of information is seamless, and the use of cohesive devices is sophisticated and effective.

**Lexical Resource (8.5):** The report demonstrates a wide range of vocabulary, used accurately and appropriately. The lexical choices are precise and enhance the overall clarity and sophistication of the writing.

**Grammatical Range & Accuracy (9):** The grammar is impeccable throughout the report. A wide range of grammatical structures is used accurately and flexibly, contributing to the overall fluency and precision of the writing.

## **Model Answer #2**

### **Response:**

The line graph delineates the yearly book readership among male and female patrons at the Burnaby Public Library during the period from 2011 to 2014.

Two predominant trends emerge from this data, illustrating the shifting reading habits of both genders, with women ultimately surpassing men in terms of books read by 2014.

In 2011, men commenced with a modest readership of approximately 5,500 books, while women read slightly fewer, at around 4,000. However, by the following year, a notable shift occurred. Men's readership declined significantly to roughly 3,000 books in 2012, whereas women experienced a substantial increase, reaching nearly 6,000 books. This marked the beginning of a significant divergence in reading patterns between the genders.

The year 2013 witnessed a dramatic resurgence in the number of books read by both genders, with men reading approximately 13,000 books and women sustaining a steady readership of around 6,000. In 2014, men exhibited a slight decrease, totaling approximately 12,000 books read, while women experienced an impressive surge, culminating in a record high of around 14,000 books. This data signifies a clear upward trajectory in female readership, contrasting with the fluctuation in male reading habits over the same period.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** Excellent response to the task. All key features are accurately described

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The flow of information is natural and logical

**Lexical Resource (8.5):** A wide range of sophisticated vocabulary is used accurately and appropriately

**Grammatical Range & Accuracy (9):** The grammar is flawless and a wide range of structures are used with complete accuracy

## **Model Answer #3**

### **Response:**

The line graph illustrates the quantity of books read by men and women at Burnaby Public Library from 2011 to 2014.

A discernible trend is observed, revealing fluctuations in the reading habits of both genders over the specified years, with men initially lagging behind women but experiencing a notable surge by 2013.

In 2011, men read approximately 5,500 books, exceeding the 4,000 books read by women. However, in 2012, the pattern shifted dramatically, as men's readership plummeted to around 3,000 books, while women enjoyed a substantial increase to nearly 6,000 books. The year 2013 marked a pivotal moment, with men reading a remarkable 13,000 books, significantly surpassing the 6,000 books read by women. This stark contrast highlights a drastic change in reading preferences, with men exhibiting an unprecedented surge in their reading activity.

In the subsequent year of 2014, while the number of books read by men experienced a slight decline to approximately 12,000, women's readership ascended to around 14,000 books, reinforcing their position as the dominant readers over the four-year span. It is noteworthy that, despite fluctuations, women consistently maintained a higher reading volume than men throughout the initial years, particularly from 2011 to 2012. Conversely, 2013 was characterized by a significant reversal, evidencing an increase in male readership that momentarily eclipsed female participation.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** The report accurately addresses all parts of the task. All main features are reported and comparisons are made effectively.

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The flow of information is natural and logical, with skillful use of cohesive devices.

**Lexical Resource (9):** A wide range of sophisticated vocabulary is used accurately and appropriately. The lexical choices enhance the clarity and precision of the report.

**Grammatical Range & Accuracy (9):** The report demonstrates a wide range of grammatical structures with complete accuracy and fluency. The grammar is impeccable.
