

# Task 1: Multiple Graphs

**Subject:** The pie charts show the results of a survey conducted by a university on the opinions of full-time and part-time students about its services.

How are you happy with current opening hours?

## **Model Answer #1**

### **Response:**

The pie charts compare the opinions of full-time and part-time students about their university services, including IT support and opening hours.

Overall, it is clear that there was more positive feedback with regard to the opening hours than the IT support. Also, full-time students tended to be more satisfied with the two services than their part-time counterparts.

Regarding IT support, over half of the surveyed full-time students said that they were very happy with this service, while only a fifth of part-time students reported that they were very happy. In contrast, just 15% of the students studying full-time were not satisfied with IT support, in comparison with 45% of part-time students. The proportion of both types of students being quite happy with this service was relatively the same, at about one third.

The majority of full-time and part-time students felt very happy with the current opening hours, at 87% and 72% respectively. Only 1% of the examined full-time students were not satisfied with the opening hours whereas the figure for part-time students was a little higher, at 5%. The remaining 12% of the surveyed full-time students felt quite happy with this service, as opposed to nearly a quarter of part-time students.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** Excellent response to the task. All key features of the charts are described accurately and concisely.

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The logical flow of information is seamless.

**Lexical Resource (8.5):** A wide range of sophisticated vocabulary is used accurately and appropriately. The language is natural and precise.

**Grammatical Range & Accuracy (9):** The grammar is flawless. A wide range of grammatical structures is used with complete accuracy and fluency.

## **Model Answer #2**

### **Response:**
