

# Task 1: Process Diagram

**Subject:** The plans below show a public park when it first opened in 1920 and the same park today. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

## **Model Answer #1**

### **Response:**

The two maps illustrate the changes made to Grange Park between 1920, when it was first opened, and today. Several notable developments have taken place, transforming the park into a more modern and versatile space.

In 1920, the park featured a stage for musicians in the center, surrounded by a fountain. Rose gardens were located in the corners of the park, with seating areas distributed around the perimeter. To the right, there was a glasshouse and a pond for water plants.

In contrast, today's park has undergone significant modifications. The stage has been replaced by an amphitheater for concerts, while the fountain in the center has been removed and a large rose garden now occupies this space, surrounded by seating. The glasshouse has been replaced by a café, and the pond has been converted into a children's play area. Additionally, a new water feature has been introduced in the bottom-right corner, and there is now an entrance to an underground car park near the Eldon Street entrance.

In summary, Grange Park has evolved from a traditional layout with a focus on floral displays and seating to a more diverse space with modern amenities such as an amphitheater, café, and play area.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** Excellent response to the task. All key features are accurately described and compared. The summary is concise and effective.

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The comparisons are smoothly integrated, and the flow is natural and logical.

**Lexical Resource (9):** A wide range of sophisticated vocabulary is used precisely and appropriately. The language is natural and fluent.

**Grammatical Range & Accuracy (9):** The grammar is impeccable. A wide range of structures is used accurately and flexibly.

## **Model Answer #2**

### **Response:**

The two illustrations compare the layout and features of Grange Park when it opened a century ago and as it is now.

It is clear that all five or six key features of the park have completely changed since its 1920 opening. In fact, only the two entrances, on Arnold Avenue and Eldon Street, and one rose garden remain from the original park plan.

In the middle of Grange Park, we see that the centrepiece fountain of 1920 has at some point been replaced by the current rose garden with surrounding seating. To the left of this, the original bandstand stage for musicians has made way for a concert amphitheatre. Next to the amphitheatre, one of the original rose gardens remains in place.

Around the park's perimeter, we see that a café and children's play area are now located in the top right corner, replacing a rose garden and pond in the original park design. A water feature now occupies the bottom right corner of the park instead of the large 1920 glasshouse, and there is a new underground car park in this corner too. Finally, the five original sets of seating around the park's periphery have been removed.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** Excellent response to the task. All key features are accurately described and compared.

**Coherence & Cohesion (9):** The report is exceptionally well-organized and easy to follow. The transitions between paragraphs and ideas are seamless.

**Lexical Resource (9):** A wide range of sophisticated vocabulary is used accurately and appropriately. The language is natural and precise.

**Grammatical Range & Accuracy (9):** The grammar is flawless. A wide range of grammatical structures is used with complete accuracy and fluency.

## **Model Answer #3**

### **Response:**

The schemes below illustrate the appearance of the park in 1920 compared to its current state.

Overall, it is evident that the park has undergone significant changes, including the addition of a café, a water feature, and the removal of the fountain. Furthermore, the stage for musicians has been expanded and transformed into an amphitheater, which is now used for concerts.

Examining the maps in more detail, it can be seen that the main rose garden has been established in the center of the park, where the fountain used to be. Additionally, the pond that previously held water plants has now been converted into a playground for children. The number of seats remains the same, though they have all been relocated to the headquarters of 'Grange Park.' Furthermore, a new entrance has been added to the southeast side of the park.

On the other hand, some areas of 'Grange Park' have not changed, including the two main entrances located on the north and south sides of the park. Despite the removal of the fountain and pond, the current version of the park offers a wider range of entertainment options with the introduction of the water feature and the play area.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** The report provides a comprehensive and accurate overview of the changes to the park, demonstrating a clear understanding of the visual information.

**Coherence & Cohesion (9):** The report is well-structured and logically organized, with smooth transitions between paragraphs and ideas.

**Lexical Resource (9):** The report uses a wide range of vocabulary accurately and appropriately, demonstrating a sophisticated command of language.

**Grammatical Range & Accuracy (9):** The report demonstrates a wide range of grammatical structures with perfect accuracy and fluency.

## **Model Answer #4**

### **Response:**

The given maps depict the arrangements of amenities in Grange Park at its primary state in 1920 and its conditions today.

Overall, despite the initial layout of the place being dedicated to plant cultivation and flora display, it has now been shifted to a more diverse recreational area with various facilities and entertainment options.

Starting from the Arnold Avenue entrance to the North side, it is evident that the seating arrangements, which were previously scattered around the park, are now concentrated in the middle, surrounding the central rose garden. There used to be three rose gardens located in the corners of the park in 1920, whereas now, merely one remains in its original location, with others relocated to the center, where the fountain once stood. On the west side of the map, the pond for water has been replaced by the children's play area, which is adjacent to a newly added café. Opposite this, the glasshouse has been removed to make way for a water feature and an additional underground entrance. Additionally, the east side has been cleared to accommodate an amphitheater for local concerts.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** The report provides a comprehensive and accurate overview of the changes in the park, addressing all key aspects of the task.

**Coherence & Cohesion (9):** The report is well-structured and logically organized, with clear transitions between paragraphs and sentences. The information flows smoothly and effortlessly.

**Lexical Resource (9):** The report demonstrates a wide range of vocabulary, using precise and sophisticated language to describe the changes in the park. The language is natural and appropriate for the task.

**Grammatical Range & Accuracy (9):** The report exhibits a wide range of grammatical structures, used accurately and with complete control. The grammar and punctuation are flawless.

## **Model Answer #5**

### **Response:**

The two maps illustrate Grange Park as it appeared in 1920 and its layout today.

The park has undergone significant changes, particularly in its central axis, with a noticeable shift towards more informal and contemporary recreational facilities replacing the original symmetrical design.

In 1920, the park was designed with a symmetrical layout, featuring two rose gardens on each side and placed at the center with the fountain. Along the axis from the middle point were strategically located features such as a stage for musicians on the West, a pond for water plants on the Northeast, and a glasshouse on the Southeast. These elements were evenly distributed, creating a formal and structured ambiance.

The contemporary layout features, in the center, a replacement for the rose garden surrounded by seats. A large amphitheater for concerts dominates the left side of the central axis, which now extends further to include a café and a children's play area. Notably, the right side now features a water feature, replacing the symmetrical arrangement of the previous structures.

### **Evaluation:**

#### **Overall Band Score: 9**

**Task Response (9):** The report provides a comprehensive and accurate summary of the key changes in the park's layout, effectively highlighting the main features and comparisons.

**Coherence & Cohesion (9):** The report is well-structured and flows smoothly, with clear transitions between paragraphs and ideas. The use of cohesive devices is sophisticated and natural.

**Lexical Resource (9):** The report demonstrates a wide range of vocabulary, using precise and appropriate language to describe the park's features and changes. The language is sophisticated and natural.

**Grammatical Range & Accuracy (9):** The report exhibits a wide range of grammatical structures, used accurately and flexibly. The grammar and punctuation are flawless.
